## UNLOCKING LOCAL CHEMISTRY SOLUTIONS

### ABOUT US

At KAPPA CHEMICALS, we are proud to lead the charge in transforming the chemical landscape of Algeria. Our commitment to innovation and excellence drives us to utilize local resources and implement customized manufacturing processes. By doing so, we bring you cutting-edge chemical solutions that were once imported, right here in Algeria.

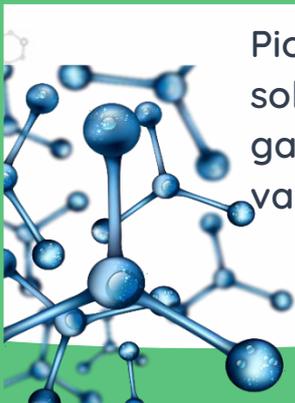

## Where science meets solutions

### Our Vision

Leading the Chemical Solutions Revolution in Algeria and Beyond

### Our Mission

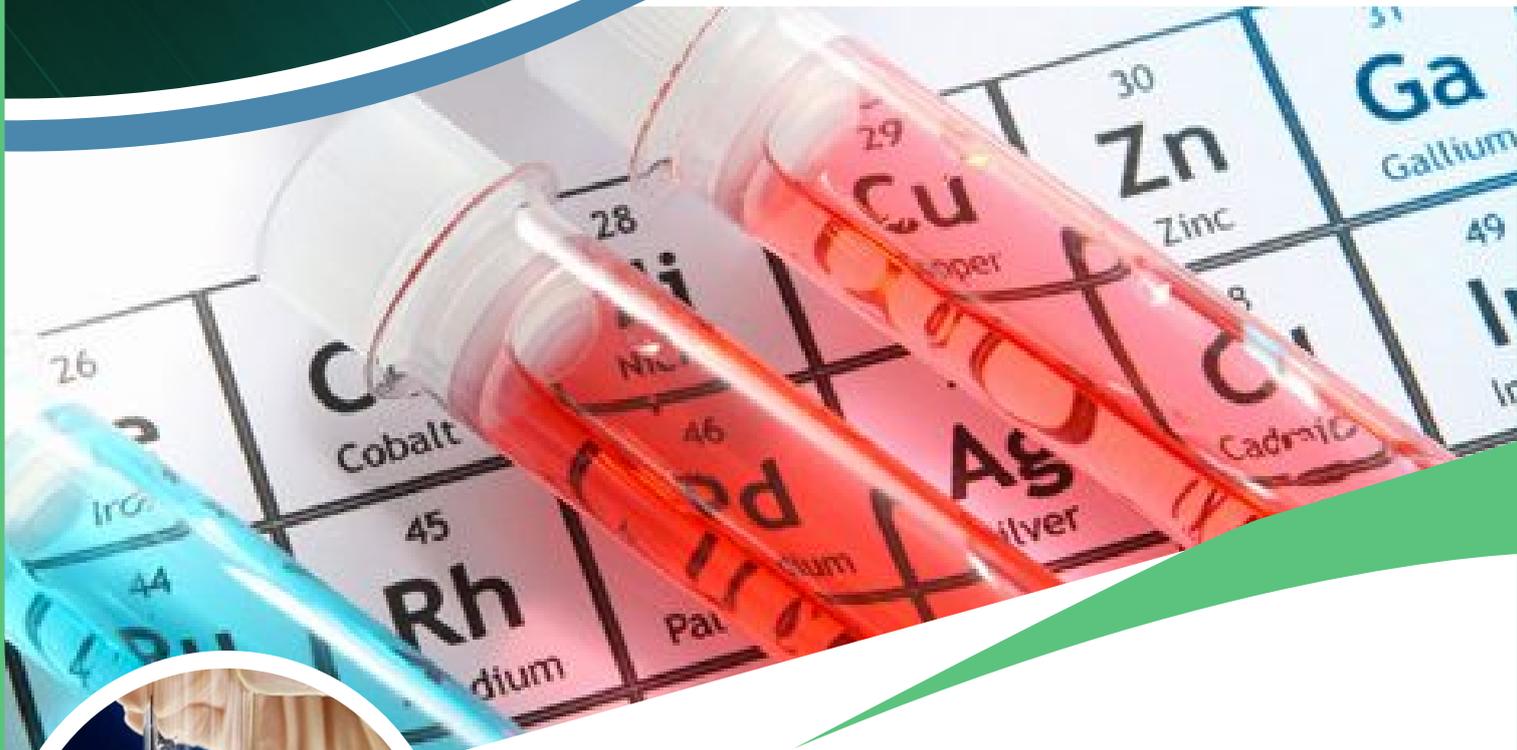

Pioneering innovative solutions for the oil and gas industry, delivering value and performance

### Our Values

- ▶ **Local Ingenuity:** "Harnessing Local Resources, Empowering Algerian Expertise"
- ▶ **Environmental Stewardship:** "Driving Sustainable Solutions for a Greener Future"
- ▶ **Customer Excellence:** "Unwavering Commitment to Quality, Integrity, and Customer Success"

### Aligning with National Strategic Plans

KAPPA CHEMICALS is proud to be at the forefront of supporting the strategic plans of the Algerian government and Sonatrach. Our project is aligned with their vision for the future of the country's chemical industry. By decreasing the cost of oil production and offering Sonatrach tailor-made chemical and fluid solutions, we contribute to the success and efficiency of the national energy sector.

### Cutting-Edge Manufacturing Facility

At KAPPA CHEMICALS, we operate a state-of-the-art manufacturing facility located in Mostaganem. Spanning over 10,000 square meters, our facility is equipped with advanced technology and adheres to the highest industry standards. We take pride in our commitment to quality, efficiency, and safety in every aspect of our operations.

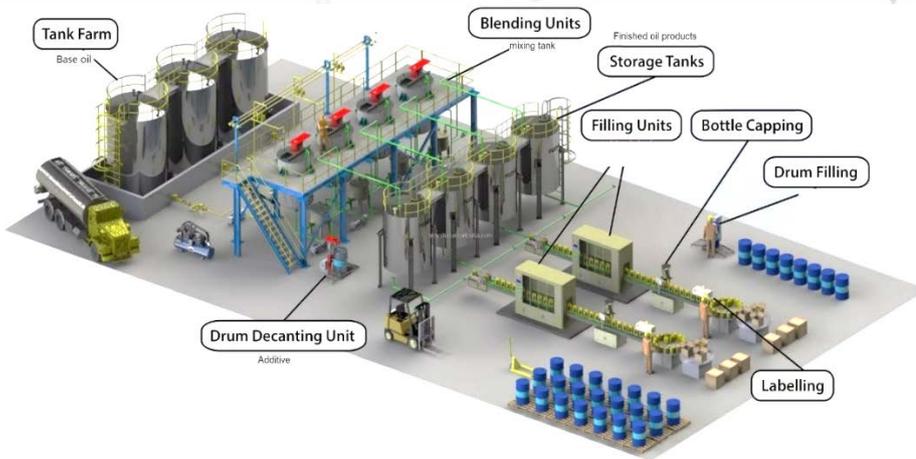

- Drilling Chemicals
- Production Chemicals
- Stimulation and Lifting
- Environmental sustainability
- Water Treatment
- Nanotechnology

Discover the heart of our operations - our state-of-the-art manufacturing plant located in Mostaganem. Spanning over 10,000 m<sup>2</sup>, our facility combines cutting-edge technology with a skilled workforce to deliver exceptional chemical solutions.

## State-of-the-Art Manufacturing Plant

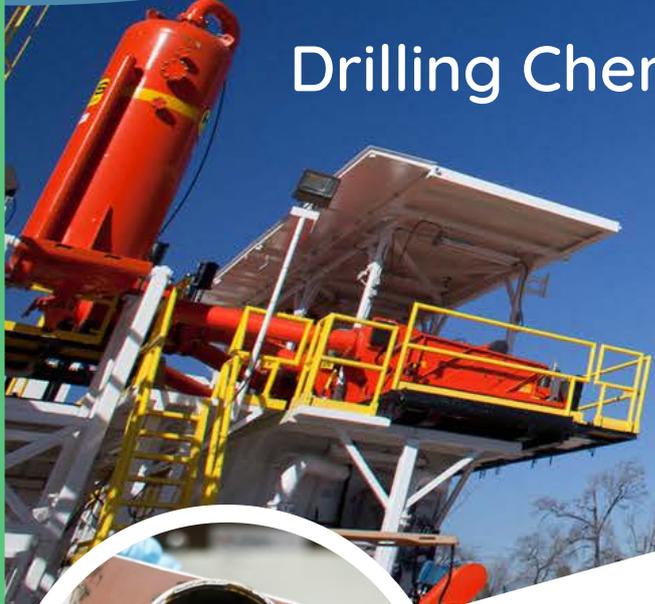

Precision and innovation are at the core of our manufacturing processes. Our plant is equipped with advanced machinery and operated by a team of experts, ensuring the highest quality standards and efficient production.

## Driving Future Growth and Innovation

Safety is our priority. We adhere to rigorous safety protocols and industry standards to provide a secure working environment. This commitment ensures the well-being of our employees and the integrity of our operations. We are dedicated to continuous improvement and innovation.

# Drilling Chemicals

## Enhance Your Drilling Operations

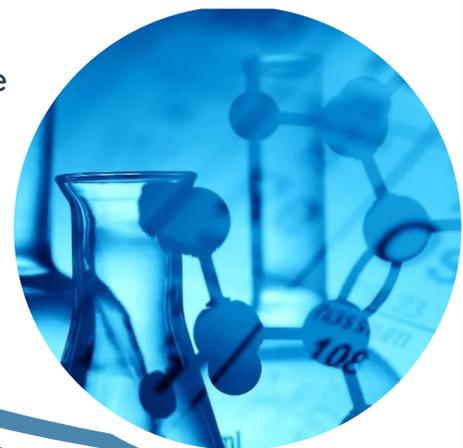

At KAPPA CHEMICALS, we offer a comprehensive range of high-quality drilling chemicals designed to optimize your drilling operations in the oil and gas industry. Our industry-standard products are tailored to improve cost efficiencies and enhance operational effectiveness

### Benefits of Our Drilling Chemicals

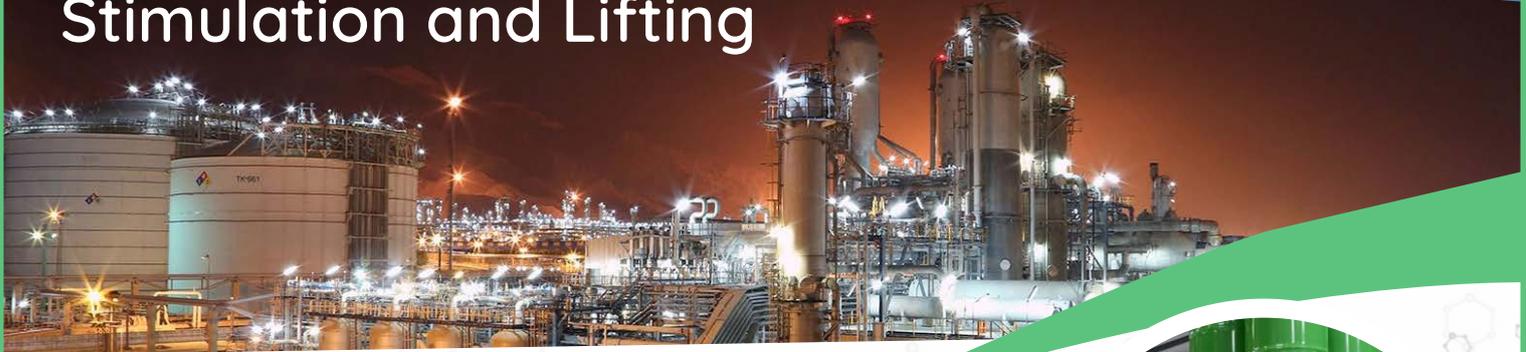

Our drilling chemicals are formulated using advanced techniques and extensive research. They provide superior performance in various drilling processes, ensuring smooth and efficient operations while meeting the stringent requirements of the industry.

From drilling fluid additives to wellbore cleaning solutions, our product line offers a comprehensive range to meet your specific needs. Partner with Kappa Chemicals for cutting-edge drilling chemical solutions that maximize your drilling success.

- Improved cost efficiencies
- Enhanced drilling performance
- Reduced downtime
- Increased operational safety
- Environmental considerations

# Production Chemicals, Stimulation and Lifting

## Unlock Production Potential

Our production chemicals are fit-for-purpose and tailored to address various challenges in surface treatment. From drag reducers to corrosion inhibitors and bactericides, our solutions enhance production efficiency while maintaining the integrity of your assets.

## Stimulation and lifting solutions

Our stimulation and lifting solutions are specifically designed to optimize reservoir evaluation, stimulation, and artificial lifting processes. With our expertise and advanced formulations, we help you enhance oil recovery rates, increase production output, and maximize operational efficiency.

## Benefits of Our Production Chemicals and Stimulation and Lifting Solutions

At KAPPA CHEMICALS, we are committed to delivering high-performance solutions that meet the unique requirements of the oil and gas industry. Our experienced team works closely with our clients to develop tailored solutions that drive success.

- Enhanced production efficiency
- Increased oil recovery rates
- Improved asset integrity
- Optimized operational performance
- Customized solutions for specific needs

## Environmental Sustainability & Water Treatment

### Environmentally Responsible Solutions

At Kappa Chemicals, we are committed to environmental sustainability and offer a range of innovative solutions for surface waste treatment, water treatment, and recycling in the oil and gas industry. Our products are designed to address environmental concerns while ensuring efficient and effective operations. Water treatment is a critical aspect of the oil and gas industry, and we offer a comprehensive range of engineered nanoparticles and treatment solutions. These technologies contribute to more efficient, cost-effective, and environmentally sound water treatment processes.

#### Benefits of Our Environmental & Water Treatment Solutions

Partner with Kappa Chemicals to achieve your environmental sustainability goals while maintaining operational excellence. Our team of experts will work with you to develop customized solutions that align with your specific requirements.

- Reduced environmental impact
- Compliance with regulations
- Improved operational efficiency
- Cost-effective solutions
- Enhanced water treatment processes
